Leanne Frank  
By  
Maria Bochsler**

Life speaks to us at every moment of our lives and the Tarot is one of those tools that can help guide us deeper into understanding the process of our lives. As we seek to understand ourselves it draws us into a deep conversation with your higher self. The Tarot can be a wonderful tool for spiritual development and even though the cards themselves have no power to change our lives it is through the symbols that awaken us to question what we have come to believe about ourselves.

You don't need to study the Tarot in order gain the knowledge or insight however it does demand respect of the symbolic messages that they offer. The Tarot symbol chart invites us to look deeper into that unknown dimension of ourselves as it us connects to the voice of our soul whether we call it Higher-self, God, the Divine or intuitions the symbols speak to us from that unphysical part of ourselves. As we still the chatter of the mind it opens the door to a new world that is filled with joy and bliss knowing oneself becomes an enlightening experience.

But until we recognize our own greatness many of us will just walk by the many opportunities that we need for our soul's growth. Most of us are unaware that we have the power to change what we have come to believe about ourselves. Many of our fears and self-doubts weaken us to the point that we start to believe we are powerless within our own limitation.

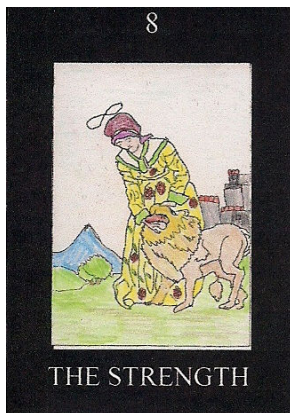

We live in a ego based world and are driven by the bullying of society, the conditions of our lives, anxiety driven of lack that it is hard to pay attention to the other hidden dimensions of our inner reality. The Tarot can help to nurture our growth and to discover who we are and ultimately give us the courage in taking that one step towards our own awakening and life's fulfillment.
